

ANNUAL SUMMIT • OCTOBER 16

AGENDA

START TIMES

9:00 AM PT | 12:00 PM ET

Welcome to RadarFirst Vision 2024

9:05 AM PT | 12:05 PM ET

SEC Cybersecurity Rules: 1+ Year Later

One year after the implementation of the Securities and Exchange Commission (SEC) cybersecurity reporting rules, we are examining their impact on business entities, the difficulties in adhering to them, and assessing the subsequent laws that have been enacted. In this session, our experts will talk about their experiences and discuss how these rules have changed how companies think about cybersecurity and what organizations can expect in the future.

Featured Speakers:

- Ria Thomas, Head of Enterprise Resilience, Strategy & Governance, Truist
- Christopher Hetner, Former SEC Chair Senior Cybersecurity Advisor

9:45 AM PT | 12:45 PM ET

SEC Cyber Risk Reporting

SEC reporting can be complicated and time-consuming. Stay tuned to learn about the latest solution from RadarFirst to help you automate, document, and streamline compliance with SEC cybersecurity obligations, allowing you more time to focus on crucial operations and to avoid costly penalties from non-compliance.

10:05 AM PT | 1:05 PM ET

Innovate to Elevate: Breach Law Analysis

Regulatory developments never rest, and neither does our legal team. In this session, Sam Castic, Privacy Leader and Lawyer, and Partner at Hintze Law, joins our team to demonstrate how our thought process evolves when we analyze a new law. Through the lens of upcoming FCC breach notification amendments, we'll provide insightful regulatory analysis and dissect the triggers and thresholds of notification requirements.

10:25 AM PT | 1:25 PM ET

The Power of Knowing: Building Internal Value

What are the keys to building internal excitement for privacy and compliance? In this session, our expert panel will provide valuable insights for effectively communicating the benefits of automation for achieving organizational compliance. Don't miss out on this chance to make an impact in your workplace.

10:55 AM PT | 1:55 PM ET

AI & Privacy: Bridging the Gap Between Progress and Protection

In a world where artificial intelligence is increasingly embedded in our digital infrastructure, privacy advocates face a growing challenge: how to protect personal data amid rapid technological advancements. Join us as we explore the critical intersection of AI and privacy and discuss how to bridge the gap between AI's potential and protection of individual rights. Don't miss this opportunity to hear from the experts on real-world scenarios, legal implications, and the latest tools for safeguarding privacy in an AI-driven environment.

Featured Speakers:

- Kalinda Raina, Vice President, Chief Privacy Officer, LinkedIn, and Founder, Raising the Digital Future
- John Donovan, Founder, Qudit, and former CEO, AT&T

11:15 AM PT | 2:15 PM ET

Ethics & AI: Navigating Responsibilities and Implications

With each breakthrough in AI technology comes new regulatory requirements protecting personal information. To best protect your organization, our C-suite will share how RadarFirst's vision for ethical and responsible use of this powerful technology can best serve you and drive innovation for our solutions.

11:25 AM PT | 2:45 PM ET

Closing Remarks

Thank You for Attending!

RadarFirst VISION 2024 encompasses the best of our work — **the innovation, the community, the culture** — and streamlines it for shared knowledge. It's where great minds meet, great leaders think, and great brands embrace data and technology to shape the future of enterprise risk management. We hope you enjoy the virtual event and are able to leave empowered to drive change and promote organizational compliance.

Sincerely,

Don India, CEO, RadarFirst
